# Login Page

The image shows a web browser window displaying a login page design. The browser's address bar shows the URL <https://app.mogups.com/sharkman/sKtel2ccVG/view/page/ad4055aaa>. The design tool interface includes a top toolbar with icons for zooming, selecting, and hotspots, and a right sidebar with an 'Edit Project' button. The login page design itself features a central form with the following elements:

- A large rectangular box at the top labeled "Site Name".
- A horizontal navigation bar containing links: [Media List](#), [Review List](#), [User Home](#), and [Login/Sign Out](#), followed by a search input field.
- A vertical stack of four input fields: "User Name", "Email Address", "Password", and "Password verification".
- A yellow sticky note to the right of the input fields with the text: "User Home link only appears after login/signup".
- A "Sign In" button located below the input fields.
- A large rectangular box at the bottom labeled "Footer".

The design is presented within a light gray frame, with a left sidebar showing icons for "Pages" and "Comments".
